Summary — Lead Frontend Engineer with 8+ years of experience building AI products and complex B2B platforms. Owns frontend product delivery from planning through production, with a focus on scalable architecture, performance, cross-team execution, and mentoring.

Technical Skills

Front-end JavaScript, TypeScript, React, Redux, React Query

Full-stack Node.js, Python, Django, SQL, PostgreSQL, MongoDB, Go

Experience

Lead Frontend Engineer

Nov 2025 – Present

Level AI

Remote

- Lead frontend delivery across AI product modules, architecture, stability, and cross-pod execution.
- Completed Voice of the Customer 2.0 from planning and design discussions through production, restructuring its frontend data flow so it could operate as an independent product module, and continue to optimize its performance and maintainability.
- Lead the development of a shared design system for reusable components across multiple company repositories, working closely with engineers and designers to define consistent patterns.
- Drive legacy code cleanup and mentor engineers working within the evolving frontend architecture.
- Raise the frontend team baseline through interviewing, standardized candidate evaluation, and development lifecycle documentation.

Senior Frontend Engineer

Mar 2023 – Oct 2025

Level AI

Remote

- Owned and delivered the frontend foundation for Voice of the Customer 1.0 and 1.5 in collaboration with Product, Design, and Analytics teams.
- Delivered the complete Alerts settings UI in 2 weeks and the interaction-heavy Conversation Tag v3 interface in 6 weeks; both remained stable with minimal rework.
- Built feedback workflows for reviewing AI-generated transcripts and emotion detection, and enhanced Intent Sandbox workflows for customer and agent intent recognition.

Tech Stack: React, Redux

Software Engineer

Feb 2021 – Feb 2023

Janio Asia

Remote

- Modernized a legacy warehouse scanner interface and built security-tag tracking for recording signs of cargo tampering.
- Delivered operational interfaces for postal-code and zone allocation, merchant profiles, and SLA management.

Tech Stack: React, Redux, Redux-Thunk, Recoil, React Query

Senior Full-stack Engineer

Sep 2019 – Jan 2021

Impact Analytics

Bangalore, India

- Built a data-rich promotion-planning dashboard using historical retail data and APIs connecting it to data-science visualization services.
- Implemented role-based dashboard access and APIs supporting promotion creation and approval workflows.

Tech Stack: React, Redux, Redux-Saga, Python (Django), PostgreSQL

Full-stack Developer

Dec 2018 – Aug 2019

Blackturtle Diginovation Pvt. Ltd.

Bangalore, India

Frontend Developer

Oct 2017 – Nov 2018

Nuchange Informatics

Bangalore, India

Education

Siliguri Institute of Technology

Bachelor of Technology in Computer Science

Apr 2013 – Apr 2017

Siliguri, West Bengal
